

ALCHEMIZE WAS MADE FOR REPLATFORMING

HELPING YOU DO MORE PROFITABLE PROJECTS:

Fewer Hands

Easy to Satisfy Customers

Repeatability

Brief Project Schedules

ALCHEMIZE IS THE FASTEST APPLICATION IN THE INDUSTRY AND THE WORK'S DONE RIGHT THE FIRST TIME

Taking the guesswork out of your replatforming, while eliminating variables and risk, can help keep your project within budget and timeline on track. By leveraging a fixed price replatform cost with a realistic and achievable execution time, we can perform your replatform in as little as 4 weeks – regardless of platform or DB size!¹

FUNCTIONALITY ONLY FOUND IN ALCHEMIZE

The Replatforming Wizard

We created and designed the Replatforming Wizard tool to focus specifically on replatforming, not process inconsistencies. The automation capabilities and built-in code-free environment maintains data integrity, eliminates human error, which reduces the risk, and eliminates the traditional pain and frustration of the process.

SIMPLE, SCALABLE PRICING

Planning and buying your replatform should be as easy as shopping online. Size your database, know your cost and make your margin. Period.

DB Size Range	Your Direct Cost ²
Up to 50 GB	\$27.5k
51 - 100 GB	\$50k
101 – 250 GB	\$75k
251- 1 TB	\$100k
>1 - 5 TB	\$125k
>5 - 10 TB	\$150k
>10TB	Please contact Maxis Sales

WHY REPLATFORM?

DB platform change for ROI on license costs

With the rising costs of database licenses, like Oracle, moving to an alternative solution could potentially cover the migration costs and provide immediate ROI

Part of your Maximo upgrade path to MAS

Unless your Maximo is deployed on DB2 already, you will likely require a replatform when upgrading to MAS³

Cloud Modernization

The Alchemize Replatforming Wizard is the solution to cloud migration for your organization

**ANY PLATFORM, ANY DATABASE, OR ANY SYSTEM...
JUST LET ALCHEMIZE REPLATFORM IT!**

¹ Based on typical completion time for the Alchemize replatform portion of the project

² As an implementer, service provider or partner, your direct cost from Maxis is a fixed price offering and includes the rental of Alchemize for the planned duration of the project.

³ If you also need to upgrade your Maximo, let Maxis do the replatform heavy lifting, and self-perform or use the vendor of your choice to perform the Maximo upgrade. We would also be happy to provide you a separate quote for the Maximo upgrade effort, if desired, and be your one-stop-shop to replatform and upgrade you to MAS.
